

OMNIUM1

INTELLIGENT LIFESTYLE

OWN YOURSELF!

HEALTH GOES PURPLE

OMNIUM1

INTELLIGENT LIFESTYLE

iMRS2000 Solution when you are constantly on the go!

Purple combines the stability of blue and the energy of red. It symbolizes power and ambition. It conveys wealth and extravagance. Purple is associated with wisdom, dignity, independence, creativity, mystery, and magic. And that's exactly what the brand new Omnium1 can do for you. The first worldwide Comprehensive Health Interface (Chi-System) for home use serves as a variable control unit for a wide range of health, wellness and fitness applications.

Omnium1 2.0 Technology

iMRS2000 Solution when you are constantly on the go!

Developed, engineered and designed in Switzerland the Omnium1 is based on the world-wide known and established Android platform. It can be used as a regular tablet without any restrictions: Surfing the web via WIFI, sending, receiving emails and complete access to the android app structure. The brand new android version 4.4.2 KitKat is already preinstalled and serves as the user interface for all related applications.

In contrast to a regular market-based tablet the Omnium1 not only contains of a specific high performance batteries (4 x 3.7V / 2500 mA/h battery), it is to date the world`s first tablet equipped with two serial ports (specific 20-pin connector). These accesses allow connectivity and control of a wide range of health, wellness and fitness related hard- and software applications (W@pp`s). Daily routines like blood pressure evaluation, blood glucose measuring, ECG`s, EEG`s, heart rate variability and even active and analog applications like pulsed electro magnetic field therapy (PEMF) or brain wave entrainment can soon be performed, evaluated and monitored by and with only ONE single control unit. Numerous W@pp`s (wellness applications) are already available with the launch, others will follow over time - the possibilities are almost endless!

The Omnium1 is a modular system and can be upgraded any time. Prevention, active health, wellness and fitness management in the comfort of your home is no longer a vision. Due to its versatility and performance the Omnium1 provides comprehensive home health management in an easy, slick and cost effective way.

Omnium12.0 Technical Specifications

Size (W x H x D)	5.26 x 8.39 x 1.178 inches
G-sensor:	3-Axis Gravity Sensos
Chip (CPU)	Media Tech MT8163 Cortex-A53 1.5GHZ
WLAN:	802.11 b/g/nMHz
Internal Memory (ROM)	16 GB
Internal Memory (RAM)	1 GB
Battery	4 x 3.7V / 2500 mA/h battery
Housing	Aluminium, Plastic
Display-Type	LED-backlit Multi.Touch capacitive touch panel
Display-Size	8" (diagonal)
Display-Ratio	16:9 by 217 pixels per inch (ppi)
Resolution	1280 x 800
External Connectors	20 Pin Adapter, Micro-HDMI, Audio Out, Microphone, Camera, Card Reader, WIFI.
External Memory	microSD, microSDHC (max. 32 GB)
Camera	5MP front 8MP rear with autofocus &LED Flash1080p HD Vid Rec
Operating System	Android™ Oreo 8.1

Omnium1 2.0 W@pp`s

A W@pp is traced to the well-established term „App“. „App“ basically describes a software application, whereas a „W@pp“ always contains of software and hardware components, which are connected with and controlled by the Omnium1.

iMRS one 2.0

The iMRS one-W@pp consists of a software package, an intelligent D/A converter to transform the digital control signals into analog, pulsating, electromagnetic fields (PEMF) and a hardware-set (applicators) for the output (multiple options available). iMRS one is the world`s first magnetic resonance stimulations system W@pp which performs on an android platform. It is technically based on the most sold and most popular PEMF system in the world for home use, the iMRS. Together with the Omnium1 interface the iMRS one consists of the unique capability of performing socket free, easy to use and totally independent PEMF applications with various applicators. The software surface is very intuitive, easy to operate and due to the proper size of the touch icons also suitable for the elderly. The new generation of applicators (OmniMat, OmniPad and OmniSpot) are outstanding, due to their high quality fabric, excellent workmanship and a compact construction for an easy and smooth transportation.

iMRS one 2.0 Software

The iMRS one W@pp for Omnium1 was created based on the newest findings in terms of easy, safe and effective operation. Clear menu structure, big touch icons with easy to read font sizes and at the same time a fresh, modern and high contrast surface design allow an intuitive and simple usability within minutes of instructions. In addition the iMRS one W@pp offers 5 preinstalled quick start programs. Just click one button to activate one of the following applications:

- Relaxation
- Performance
- Activation
- Sleep
- Regeneration

Omnium1 2.0 Applicators

OmniMat

Triple-fold, 6 built in, non-insulated, solid copper coils in 3 segments, Triple saw-tooth wave impulse and magnetic field strength max. 45 micro Tesla, increasing amount of windings from top to bottom.

OmniPad

Single-fold, 2 built in, non-insulated, solid copper coils, same amount of windings, square wave impulse, magnetic field strength max. 70 micro Tesla, flexible fixing belt with adjustable extension for a simple and effective local application.

OmniSpot

2 single segments connected with a flexible belt. 2 built in, non-insulated, solid copper coils, same amount of windings, square wave impulse, magnetic field strength max. 120 micro Tesla, Helmholtz-effect (=homogenous magnetic field) due to the opposite arrangement of the coils during the application. Fixing belt for an easy and effective, punctual application.

OmniBrain

Over decades Brain Wave Entrainment has become an integral part of modern mental training concepts. The technology is widely used in modern medicine as well as in professional sports and as a very effective, supportive learning tool. The primary goal of a brain wave entrainment session is to utilize the basic tendency of the human brain to resonate with external stimuli. Hereby one can apply visible or audible, external frequencies which can be recognized and processed by the brain. By controlling the applied frequencies in a proper way, the brain starts resonating with it and adjusts its own frequency patterns. This way, the user can actively influence the actual mental state. Omnium1 is a 3-way-brain wave entrainment system, which is capable of gaining resonances based on light, tone and color. The goggle is made of suede-leather, very comfortable to wear and contains of built in high end ear phones for the tone and music stimulus as well as a flexible PCB with RGB-LED`s to create the desired light and color frequencies. All patterns can be individually adjusted. OmniBrain is a 2-channel brain wave entrainment system and works independently with the left and right channel.

OmniBrain - Specialty

OmniBrain is the only 2-channel brain wave entrainment system in the world, which can be also simultaneously used together with the magnetic resonance stimulation application (PEMF) provided by the iMRS one. This supports and optimizes the desired wellness effect and saves a lot of time! The Omnium1 together with the iMRS one W@pp is capable of controlling the entire application with one and the same operation surface.

OmniLounger

The All-In-One solution for clinics, spas, hotels, wellness lounges and a designer piece of furniture for home use. In contrast to the regular whole body applicator OmniMat, the OmniLounger comes with integrated solid copper coils UNDERNEATH the contact face. The supplied foam cushion serves hereby only for the comfort of the user. Ergonomically formed, the user literally „levitates“ in a completely relaxed body position and receives all amenities of the iMRS one PEMF application (incl. OmniBrain). The Omnium1 control unit is safely attached to a flexible extension arm. The user is able to operate the system while lying on the OmniLounger. A little bag on the back of the Lounger`s heads serves as a storage for the OmniBrain system.

- OmniMat
- OmniPad
- OmniSpot
- OmniBrain
- D/A Converter
- iMRS one Android software

iMRS Omnium1 2.0 BrainWave Combo

- Omnium1 Kit
- OmniBrain
- OmniBrain Android software

Top 9 Benefits of the iMRS Omnium1 2.0

1. Great Price - Starts at only \$3345

The Omnium 1 Starts at only \$3345 and includes a FREE Android Tablet, OmniMat (Full Body Mat), OmniPad (Local Applicator), D/A Converter, and power supply.

(Note: Omnispot, Omnibrain, and accesories are extra)

2. High End Android Tablet Included

You also get a fully functioning Android Tablet for Free with the added benefit of a super long battery life.

3. Top Portable unit in the World.

New Tablet and Full Body mat are EXTREMELY portable. Full body mat folds 3 times into a small rectangle that can fit easily into a backpack, duffle bag or small luggage. You get the benefits of a full body applicator with extreme portability. Great for travelers, business professors, practitioners, and anyone that is constantly on the go. It fits in the package show in image - full body mat and ALL! Great for adventures and constant Travelers

4. High Tech and Upgradeable

Finally, a PEMF device for the 21st Century that is up to speed with tablet technology and a mobile lifestyle. Not only do you get a free Android Tablet that is highly portable, but the tablet comes pre-installed with 5 fast start programs for easy application and automatic and free updates on software and operating systems when available. Also, the Omnium 1 is a platform that will soon include

other wellness applications (W@pps), such as blood pressure monitor, blood sugar, heart rate variability, EEG, EKG, and more! The Omnium 1 includes an easy to select 0-60 minute settings so you can use it for extended time without having to restart. It's very easy to select the exact time you want.

5. Built in Long Life Battery

The Omnium 1 is a custom Android tablet with a supercharged batteries that will deliver 5 hours of continuous use on the Highest Settings (120 uT on Omnispot).

6. Applicators w/ “Wrap Around” Velcro Straps

The Omnium 1 applicators (Omnipad and Omnispot) include Velcro straps that secure the applicators “hands free” around any area on your body. And because the Omnium 1 is tablet based and battery powered, you can easier get up and move around with the applicators securely fitted on you.

7. Helmholtz Coils on Omnispot (Yield Uniform Field)

Helmholtz coils on omnispot for a uniform magnetic field. Helmholtz coils are a pair of circular coils connected in series that creates a uniform magnetic field between the coils so there is NO LOSS in intensity through both sides. And the Omnispot goes up to 120 uT which is a UNIFORM intensity with no loss in power. Includes the NASA square wave for powerful pain relief, healing and Regeneration.

8. Stand Alone Omnibrain System (or Integrate w/ Omnium 1)

Omnibrain application can be purchased separately or with the Omnium 1 system. The Omnibrain is advanced Light and Sound relaxation with the ability to create ANY colors for advanced color therapy applications in addition to the standard light and sound relaxation benefits.

9. Still Uses Research Proven Earth-Based Frequencies and Intensities

The new iMRS Omnium 1 still has all the same research proven earth based frequencies, intensities, ideal waveforms and Biorhythmic Clock just like the iMRS 2000.

And even though it’s portable, it still uses pure copper coils, again just like the iMRS 2000. It’s a thinner mat and folds one extra time making it half the size of the iMRS 2000.
