“Look deep into nature and understand everything else better”

-Albert Einstein

iMRS Prime Products

iMRS PRIME CONTROL UNIT

- Housing and pedestal in brushed aluminum, ROHS/REACH/IP20
- 10.2" capacitive touch screen LCD-Display
- 2 earphone jacks (3.5).
- 2 USB jacks
- One-Cord connection (20-pin) to Conectorbox
- LED-Power indication
- 2 built-in speaker
- NFC sensor.

Applicators

The “Exagon-Series” is the newest generation of iMRS prime applicators. Every PEMF applicator serves as the conductor of the exposed signals to the receiver and is therefore the most important component. The brand new Exagon applicator family unifies all vital properties of PEMF in one solution.

Applicator Special Features Include:

- Biocompatible material!
- The entire construction is designed to last for years – even with multiple, daily applications!
- The honeycomb structure of the fabric surface is breathable and prevent sweating, contamination and is easy to clean!
- The built-in copper coils are rock-solid and non-insulated to create the highest physical efficiency of the applied electromagnetic signal structure!
- The newly designed and engineered “Optical Function Control OFC” guarantees constant monitoring of the functionality of each applicator and indicates malfunctioning with a red LED! It even displays the preprogrammed pole shifts with different colors (Blue and Green) during an application!
- Every Exagon applicator has built-in intelligence in order to ensure bilateral communication with the main processor of the iMRS prime control panel!

“Life is driven by nothing else but electrons”
-Albert von Szent Gyorgy

EXAGON MAT THE FULL BODY APPLICATOR

- 6 built-in, rock-solid copper coils, divided in three pairs with different amount of windings to control the applied field intensity over the entire surface
- Triple Sawtooth Waveform for highest efficiency of low-pulsed - PEMF
- Foldable in 3 segments
- Built-In Operating Function Control
- Medical-Grade Klick-Plug

EXAGON PAD THE LOCAL BODY APPLICATOR

- 2 built-in, rock-solid copper coils to evenly control the applied field intensity over the entire surface
- Square Wave for highest efficiency of locally applied PEMF
- Built-In Operating Function Control
- Medical-Grade Klick-Plug

IMRS

"Everything in life is vibration"
- Albert Einstein

CONNECTOR BOX

- Designed as the gateway between the iMRS prime control unit and the applicators/accessories
- Built-in microprocessor with multidirectional signaling
- 6 applicator jacks
- 2 Sensor jacks
- 2 USB jacks
- 2 integrated D/A-Converter allowing for two separate, individual applications with only 1 control unit
- Brushed aluminum housing for effective heat dissipation, ROHS/REACH/IP20
- 2 built-in speaker
- NFC sensor

EXAGON SPOT THE PUNCTUAL APPLICATOR

- Newly designed and flexible applicator for punctual usage and utilizing the so-called “Helmholtz-Effect”
- 1 built-in, rock-solid copper coil in each segment (2 in total) to flexibly control the applied field intensity over the particular surface
- Square Wave for highest efficiency of locally applied PEMF with Helmholtz-Effect
- Built-In Operating Function Control
- Medical-Grade Klick-Plug.

“We now realize that the phenomena of chemical interactions, and, ultimately life itself, are to be understood in terms of electromagnetism.”

-Richard P. Feynman

iMRS Prime Products

EXAGON BRAIN

- Newly designed Goggles with 12 built-in LED`s on each side. Housing is completely darkened for optimal performance
- shaped for a pleasant experience
- Photic, chromatic and audible BrainWave Entrainment combined in one single system
- Elastic band for easy adjustment
- USB-Plug.

EXAGON SENSE

- Bifunctional photoplethysmography sensor, medical-grade
- Designed to detect blood volume changes in the micro-vascular bed of tissue
- SpO2 and HRV evaluation
- Dynamic intensity adjustment during a PEMF application
- Medical-Grade Klick-Plug.

"The Sole Governing Agency of the Particle is the Field"
-Albert Einstein
